Vous trouverez ci-dessous la façon de nommer et prénommer ses enfants dans les nations de Théah. Il est bien entendu que les dénominations de la noblesse et du vulgum pecus diffèrent énormément dans la plupart des pays. Cette aide de jeu n'a que vocation à vous aider à trouver des noms pour vos héros et PNJ.

Cas général du Vulgum Pecus

Prénoms

Vous trouverez dans les pages suivantes une grande liste de prénoms classés par pays. Bien entendu, ceux-ci proviennent de leurs équivalents nationaux du monde réel. Ainsi, les prénoms montaginois sont les mêmes que les prénoms français et les prénoms usurans viennent de la Russie de notre monde.

Ces prénoms peuvent être combinés avec un autre pour former un prénom composé – *exemples : Karl-Franz, Pierre-Henri, Maria-Soledad, Giancarlo-Franco, etc.* Cette pratique est très courante parmi la noblesse.

Patronymes

Tout comme dans l'Europe de la Renaissance, le prénom est plus couramment utilisé pour identifier une personne, et le patronyme n'est employé que lorsque l'identification doit être la plus précise possible et que le prénom seul ne suffit pas. Les noms patronymiques ne sont pas toujours transmis des parents à l'enfant, comme il est d'usage aujourd'hui. La plupart des gens choisissent leur patronyme lorsqu'ils quittent le domicile familial, ou deviennent adulte, pour se distinguer. Souvent, ils adopteront leur nom de famille, mais il existe de nombreux cas où les enfants s'octroient un patronyme totalement nouveau.

Les patronymes peuvent être inspirés par une grande variété de sources :

1 - Noms de lieux

Exemples : Arnaud de Charousse qui est né dans la capitale montaginoise ou Carlos San Juan, originaire de cette ville castilliane.

Ainsi, tous les noms de lieux mentionnés dans l'univers de Seventh Sea peuvent être employés comme patronymes.

2 - Professions

Exemples : Johann Schmied qui est forgeron ou Batiste Meunier qui exerce, comme son patronyme l'indique le métier de meunier.

De tels patronymes tendent à se "fossiliser" et il est très courant pour un personnage d'être connu et appelé par rapport à la profession de son père ou de son grand-père alors qu'il exerce lui-même une carrière totalement différente ; ainsi, ce Johann "le forgeron" pourrait être actuellement charpentier ou batelier. Naturellement si Johann préfère être appelé Johann Zimmermann (c'est à dire, Johann le charpentier) ou Johann Bootmann (Johann le batelier), rien ne l'empêche de changer de nom – il n'a qu'à le faire !

3 - Surnoms

Exemples : Werner Grosz pour "Werner le gros", Jacques Legrand en raison de sa taille ou Jenny Brown pour "Jenny aux cheveux bruns".

Si un personnage possède un trait caractéristique flagrant, celui-ci pourra être employé comme patronyme. Les surnoms ne sont pas forcément péjoratifs ou peuvent tout au moins concerner des qualités, des défauts, des valeurs morales (ou leur absence) ou autres qui ne se constatent pas de visu. *Par exemple, Robert Poltron qui, chaque fois qu'on l'appelle ainsi, se remémore avec résignation le petit moment de faiblesse de son grand-père.*

4 - Parents ou ancêtre

Exemples : Berndt Hanssohn qui signifie "fils de Hans", Thorfinn Ulfbranddottir qui signifie "dont la mère était Ulbrand", Duncan Mac Leod, qui signifie "appartient à la famille de l'ancêtre Leod" ou Rachid ibn Mohammed qui signifie "descendant de Mohammed".

Se nommer soi-même d'après un parent ou un ancêtre – réel ou imaginaire – est une pratique courante et permet ainsi de montrer à tous que l'on descend ou que l'on est parent avec cette célèbre personne.

NOMS DE FAMILLE

Les noms patronymiques vesten sont très simples à réaliser, il suffit de rajouter –sson (ce qui veut dire « dont le père est ») ou –dottir (ce qui veut dire « dont la mère est ») à la fin d'un prénom afin d'obtenir un nom du style *Árngeírr Stjernásson*, ce qui signifie, *Árngeírr, dont le père est Stjerná* ou *Árngeírr Þórhálladóttir*, ce qui signifie *Árngeír, dont la mère est Þórhállá* suivant qu'il préfère être rattaché à la lignée de son père ou de sa mère.
